

# YOUR BRAIN

## GETTING THE BEST FROM THIS AMAZING ORGAN

### **H<sub>2</sub>O**

The ONLY fluid that hydrates the brain.  
Drink 2L a day!

### **O<sub>2</sub>**

Oxygen helps the brain convert glucose into fuel. Pause often to take 3 deep breaths or sighs.

### **EXERCISE**

Stimulates oxygen in the blood and helps the brain integrate information.

### **GOOD FOOD**

Healthy unprocessed food especially protein (for brekky), good fats and Omega 3 & 6 Oils, and fresh fruit and veg – Can't be beaten!

### **SLEEP**

Deep sleep every night is critical to renewing our cells and makes it possible for us to retain new learning and focus – and not to be horrible screaming wrecks.

### **VISUALISATION**

Used by elite athletes to reach their goals. Your brain doesn't know what's real or imagined. Try it out.

## AND A BIT OF QUANTUM PHYSICS...

YOU CAN BE POSITIVELY OR NEGATIVELY AFFECTED BY OTHERS WITHOUT NOTICING, SO CAREFUL WHO YOU HANG AROUND WITH...

OPTIMISTIC, CARING, POSITIVE PEOPLE

TOXIC, CRITICAL PEOPLE
